

Monitoring of explosive materials in transport

CCTV systems for armoured security vehicles

PRODUCT CODE: AEC-669

BARCODE: 9332820007008

DESCRIPTION: Super Heavy Duty Explosion Proof Camera

When we say “Super Heavy Duty”, we mean it! This explosion proof camera is exactly that. The AEC-669 is built with an incredibly tough 304 Stainless Steel housing and braided cable, this camera can withstand just about anything that is thrown at it.

The high resolution Sony EXview HAD 1/3” CCD sensor provides the clearest video image with an amazing 700 TV lines. The AEC-669 has built-in motion detection, auto-white balance, auto-shutter speed (1/60th – 1/100,000th sec) and Infrared night vision up to 10 metres.

Applications include: Security vehicles, transport vehicles carrying flammable materials etc.
