

# Dual Full HD Rear View & Reverse Camera

AHD-DUALW

The AHD-DUALW is two Full HD 1080p cameras in a single metal housing, designed specifically for caravans and trailers. The top camera [with 120° view angle] is for “always-on” rear view, so you can have a clear view of the road behind you just like you would in your rear view mirror with no caravan hitched. The bottom camera [with a 180° view angle] designed to be a standard reverse camera. The AHD-DUALW is weather sealed IP69K with 2x 600mm 4pin cables [one for each camera]. The AHD-DUALW pairs nicely with our NSR-73AHD Full HD mirror.
