

1080p AHD External Dome Camera

AHD-ORD170

Enhance the safety of your commercial vehicle, truck or bus with our AHD-ORD170 Heavy Duty Metal Dome Camera. This robust camera delivers high-definition 1080p AHD resolution for clear, detailed views of your vehicle's surroundings. The CMOS sensor provides excellent image quality, ensuring that even in low-light conditions, you can see with clarity. With a wide 170-degree viewing angle, this camera covers a broad area, eliminating blind spots and increasing safety.

Night vision is supported by six infrared LEDs, allowing visibility up to 5 meters in complete darkness, while the built-in microphone captures audio, providing a comprehensive sense of your environment. The camera's automatic features, such as gain control, white balance, and backlight compensation, work together to maintain optimal image quality in various lighting conditions.

Designed to be durable and reliable, the camera includes a fixed 1-meter cable and a 4Pin Aviation style plug for easy installation [many extension cables available, from 6m to 20m]. It's rated IP69K for water resistance, offering protection against dust and high-pressure water jets, making it suitable for any weather conditions. Operating on a 12vDC power supply, it's a perfect fit for the electrical systems of most commercial vehicles.

Specifications

Camera resolution: 1080p AHD
Sensor type: CMOS
View Angle: 170°
Distance guide lines: No
Min Illumination: 0 Lux
Infrared LEDs: Yes, 6
Night vision distance: 5m
Microphone: Yes

Automatic Gain Control
Automatic White Balance
Automatic Backlight Compensation
Automatic Shutter: 1/30 ~ 1/50,000 sec
Cable included: Fixed ~1m
Plug type: 4Pin
Water Resistant: IP69K
Power: 12vDC
