

OEM Style Flush Mount Mini Camera

The CCD-FLUSH170 is an OEM style CCD mini camera, for a factory look. The flush mount is ideal for mounting under tailgate handles. A great upgrade over factory cameras with a high resolution sensor with 600 TV lines and 733 x 493 pixels. The camera cable connects via a micro connector plug to allow threading through small drill holes. Camera to monitor plug is universal RCA to suit any monitor.
