

PRODUCT CODE: DA-300

BARCODE: 93328200659

PRODUCT DESCRIPTION:

Motorcycle weather resistant radar case

Protect your radar detector from the elements with the Motorcycle Weather Resistant Hard Case.

Constructed from tough ABS plastic with rubber seals this radar case can withstand even the heaviest of downpours.

With a low-vibration universal pivot mount and special non-slip silicon insert mat, your radar detector will be secured even on the windiest of roads.

Removal of the case is simple if you're going to be away from your bike. Just slide the case out of its locking position and remove it from the main mount. There is no need to remove the radar detector from the case.
