

dashmate®

4K HD Dash Camera with
3.0" OLED Touch Screen,
WIFI & GPS

Exceptional Image Quality. From both camera and screen

We have combined the ultimate in 4K image quality and the latest innovation in OLED screen technology for the first time in a Dash Camera.

Featuring 3x pixel definition and resolution of standard 1080p FHD, our 4K HD 2160P sensors capture footage at 24 FPS for exceptional Image Quality, License Plate Clarity and Definition.

Ultimate in Screen Performance Vibrant OLED Touch Screen

Experience the ultimate in-screen performance with our OLED display. Featuring bright vivid colours and optimal viewing from almost any angle and every situation.

Improved Colour Accuracy

Vibrant Rich Blacks

Greater Viewing Angle

High Refresh Rate

TECHNOLOGY DRIVEN™

Powerful technology to keep you safe on the road

4K HD Resolution

4K HD 2160P Sensors capture your footage at 24 FPS for outstanding image quality.

150° FOV

Ultra-Wide angle lens provides greater area coverage and protection.

3.0" OLED Touch Screen

Easily navigate menus, adjust settings and view footage using the in-built touch screen.

Wide Dynamic Range

WDR brightens the dark areas of a image, increasing contrast and picture detail.

Magnetic Mount

Easily detach your dash camera from your windscreen mount.

Loop Recording

Constantly records your journey by recording over the oldest recorded file.

In-built WIFI & GPS

Access footage on your smartphone via WiFi. The GPS will record your speed and position as you drive.

Optional Rear Camera*

Add a VGA Rear Camera and simultaneously record incidents behind your vehicle.

*VGA Rear Camera is not included and is available for purchase separately.
