

4 Channel Full HD Drive Recorder

The DVR-4200AHD is a heavy duty, water proof, Full HD* 4 channel DVR with GPS. It can connect up to four cameras, each with an individual trigger to record real time video in Full HD 1080p*. Recordings are stored on an internal 2.5" HDD or SSD (up to 1TB, purchased separately) with SD card backup (up to 128GB). WiFi or USB3.0 data transfer, so no need to remove the internal drive. GPS to log the position and speed of the vehicle. Playback/monitor on any screen via the CVBS/RCA video output (standard definition) or VGA connection (HD) to a Nesa NSM-DVR42T7 monitor for full touchscreen control of the DVR's functions. Multiple recording modes including alarm and motion detection. Optional extras: Special touchscreen (order on request) for full control including device setup; Dash mount display w/event log button. *Recording resolution is camera resolution dependant.

Specifications
