**PRODUCT CODE: BEL GX-65**

**PRODUCT DESCRIPTION:** GPS equipped portable safety radar detector

**NARRATIVE**

Beltronics enters the GPS era with powerful GX65 and Alertlock™ filter. A radar frequency filtering system, that permanently eliminates false alerts by location and frequency. The GX65 provides total coverage with X, K, Superwide Ka, International Ku and Safety Warning System (SWS) radar capability, combined with front and rear laser detection. It does this while remaining quiet as a mouse due to the GPS filtering. The GX65 also allows you to mark locations with the GPS Mark Location feature and its radar sensitivity increases as your speed increases, and already comes with the AU/NZ database of fixed speed and red light cameras preloaded.
