NARRATIVE

The CP-73 pack is an ideal DVD solution for smaller vehicles. Ceiling mounted where the interior light sits this model comes with 2 x dome lights built in. The wireless fm transmitter allows audio to be played through the existing fm radio system & the built in IR transmitter lets an unlimited number of listeners pick up the audio on the wireless headphones.

Multiple formats(DVD/DivX/MP4) can be played back with the option of simply plugging in a USB drive or SD card for more mobile video solutions. This pack comes supplied with 2 x NHP-2AB wireless folding headphones.
