

PRODUCT CODE

NESA NAV-12

PRODUCT DESCRIPTION

Universal GPS navigation system with Australia wide mapping

NARRATIVE

NESA NAV-12 is the latest in-car navigation system featuring turn-by-turn navigation, re-routing, 3D, 2D and birds eye view, points of interest, history and favourites. This system will plug into most AV screen inputs and comes with its own speaker, magnetic base GPS antenna (Sirf III), full function remote control, remote eye and all RGB and AV cables. It comes with the latest Australia wide Destinator mapping on a 128Mb SD card and is simple and easy to use. The design is unique in that the hideaway box will suit both OEM & aftermarket screens, making the NESA NAV-12 an ideal add on to your reversing system or entertainment system. *Find your way with NESA NAV.*
