PRODUCT DESCRIPTION

6.5" Double DIN In-Dash Audio Visual Navigation System

NARRATIVE

Stay one step ahead of the others. The NAV-6510 is a high precision 2Din GPS navigation system with built-in AM/FM tuner capable of playing DivX/DVD-R(RW)/VCD/SVCD/CD-R(RW)/JPEG/MPEG. Award winning* navigation software and Australia wide NAVTEQ mapping is included, red light camera, school zone & blackspot warnings as well as POIs. Functions include turn by turn voice instruction, 2D/3D screen views, door to door navigation, choice of the quickest & shortest routes, route preview and review for calculated route, toll & road avoidance, integrated GPS antenna & electronic compass. The bright 6.5" widescreen is controlled by either remote control or touchscreen making the NAV-6510 the perfect Entertainment and Navigation system for your vehicle. Add a NESA reversing camera for the complete solution. 12 month warranty and guaranteed software support and mapping updates for a minimum of 3 years.

**(MSN 2006 UK Award – "Voted Best Quality and Performance" for Portable Navs)*
