

PRODUCT CODE

NESA NAV-FORD

PRODUCT DESCRIPTION

GPS navigation system suits Ford Premium Sound System

NARRATIVE

NESA NAV-Ford is the latest in-car navigation system featuring turn-by-turn navigation, re-routing, 3D, 2D and birds eye view, points of interest, history and favourites. This system integrates seamlessly to the original Ford colour screen as used in Territory, BA and BF. Remote control feedback is also controlled by the Ford system leaving the system totally hidden. Supplied with its own speaker, magnetic base GPS antenna (Sirf III), full function remote control and all pre cabled looms. The NAV-Ford comes with the latest Australia wide Destinator mapping on a 128Mb SD card and is simple and easy to use.

Ford's that have an existing camera require an additional splitter.

Find your way with NESA NAV.
