

PRODUCT CODE

NELTKW773 (ECC70N + NSM-7300 + CURL101)

PRODUCT DESCRIPTION

High resolution waterproof camera with Heavy Duty 7" TFT-LCD monitor & Universal Trailer Curly Cable Kit

NARRATIVE

This premium industrial quality camera kit has been carefully selected to suit a range of heavy duty vehicle applications. Don't compare to entertainment screens, this 7" screen is designed for harsh conditions & to run all day. The screen takes up to 32VDC in & feeds 12V power out to each of the cameras, eliminating the need for a DC-DC converter. The OEM quality colour camera has been proven in the harshest Australian conditions over many years & works well in low light conditions. The custom designed curly cord has all 7 pins wired through & the sockets are accessible for customised applications including multiple trailer or multiple camera applications.
