

## PRODUCT CODE

**NSR-KC45BT**

## PRODUCT DESCRIPTION

*Replacement reverse mirror with 4.5" screen & bluetooth car kit*

## NARRATIVE

The integration of a Bluetooth car kit to a mirror screen combo gives not only space saving benefits but also makes the installation much simpler. The screen features 2 RCA inputs with the 2nd input triggered by reverse gear, allowing for the perfect integration with a NESA reversing camera.

The bluetooth feature gives seamless integration with your Bluetooth phone & features built in speaker & integrated microphone. Features such as voice dialling & calling number display add to the appeal of this slimline model, making it ideal for vehicles with limited mounting space. Optional mounts are available to suit Toyota, VW, Honda or Nissan & it comes with a universal mount as standard to suit most other vehicles. Also available in a clip on universal mount version (p/n NSR-CL45BT)
