

NESSA

PRODUCT CODE

NSR-NAV35

PRODUCT DESCRIPTION

3.5" GPS, Bluetooth, Rear Camera Mirror Monitor

NARRATIVE

The NSR-NAV35C is designed to our specifications to offer the very best in both GPS navigation & reverse mirror technology. This extremely versatile screen solution can be easily mounted to virtually any existing rear view mirror. The high speed GPS includes the Road Sense black spot data and HEMA 4WD trails (selectable on start up). The CE based operating system allows 3rd party applications (including Topographical maps) to be loaded from an SD card. Inbuilt batteries allow for quick Navigation hot start and memory even when the ignition has been turned off. The inbuilt Nand flash can be used for MP3 or MP4 playback through the built in speakers.

With reverse camera, AV inputs & Bluetooth phone compatibility as well as the anti glare mirror screen, the NSR-NAV35C is a very versatile all in one solution.
