

PRODUCT CODE

NAP ZAPPER

PRODUCT DESCRIPTION

NAP ZAPPER - Driver Alert

NARRATIVE

The Nap Zapper is an anti-drowsy alarm designed to raise drivers' awareness of momentary lapses caused by sleepiness and tiredness. The Nap Zapper is worn behind the ear and works on the principle of electronic balance. As the drivers head nods below a preset angle it emits a loud alarm signal alerting the driver to take corrective action. The Nap Zapper can be used by drivers, security guards and machine operators.
