

PRODUCT CODE

SAFEMATE ABT-2

PRODUCT DESCRIPTION

Digital Breath Tester

NARRATIVE

Have you ever wondered whether you are over the legal limit after a few drinks? Are you afraid that friends may be driving drunk, but you're not sure?

Now you can measure anyone's blood alcohol level with a portable breath tester. Simply blow into the tester and your blood alcohol level will be displayed in seconds.

Safemate ABT-2 is designed to detect the percentage of the alcohol in your breath, so you may know how much you are drunk. The Safemate ABT-2 helps you know your limit. It is a fast reliable and pocket sized breath tester.

It's easy to use! One button operation, auto calibration, shirt-pocket size, and a host of convenient features make the Safemate ABT-2 stand alone.
