

**PRODUCT CODE: TD-60 & TD-80**

**BARCODE: 933282000623 (TD-60)**  
**933282000624 (TD-80)**

**PRODUCT DESCRIPTION: Digital Mono-block Micro Amplifiers**  
**1500w (TD-60) & 2300w (TD-80)**

## NARRATIVE

Good things come in small packages. Who knew something so small could pump so much power? The TS Power Debut Series amplifiers are ideal as a system upgrade to original equipment audio systems due to the small footprint, very low heat output & speaker level inputs. If your vehicle has the audio system integrated in the dash with the air-conditioning system or with steering wheel controls and cannot be replaced, here is your upgrade solution. RCA inputs also allow for traditional aftermarket system upgrades & all models are happy to run at 2 ohms or 4 ohms bridged, allowing system versatility.

## SPECIFICATIONS

<b>Class D Digital Full Range Amplifier</b>	Power Output – RMS: (TD-60) 400w (TD-80) 800w x 1 @ 4-ohm Mono (TD-60) 600w (TD-80) 1200w x 1 @ 2-ohm Mono
<b>Full MOSFET PWM Power Supply</b>	
<b>SMD Technology on Double Sided PCB</b>	
<b>Remote Mount Gain Control Included</b>	<b>Total Harmonic Distortion: 0.5%</b>
8ga Power Terminals & 12ga Speaker Outputs	<b>Frequency Response: 20-150 kHz</b>
High & Low Level Signal Inputs	<b>Signal-to-Noise Ratio: 70dB</b>
Variable 35-250Hz 12dB Low Pass Filter	<b>Damping Factor: &gt; 250</b>
Variable 10-50Hz 12dB Subsonic Filter	<b>Input Sensitivity: 200mV-6V</b>
Variable 0-12 dB 45Hz Bass Boost	<b>Minimum Speaker Impedance: 2 Ohm Only</b>
<b>Dimension:</b> TD-60: 120mm (w) x 38mm (h) x 203mm (l) TD-80: 120mm (w) x 38mm (h) x 228mm (l)	

**DATE OF PRODUCT RELEASE:** January 2013
