**BARCODE 9332820004045**

**PRODUCT DESCRIPTION**

9" Widescreen Portable DivX/DVD Player with USB & SD Card Reader Slot

**NARRATIVE**

Boasting a massive 9" TFT-LCD screen, the TFDVD-9109D offers superb viewing on the move. Complete with a simple headrest mounting kit & headphones for the car, this unit is compatible with a host of formats including CD, DVD and DivX. You can fully rotate the screen and lay it flat onto the DVD player so it can be used as a tablet style DVD player in the car or on a desk or table. The DVD player is multi region and features anti-skip technology for trouble free entertainment. USB and SD memory card slots means now you can also view photos or play music stored on an external device. This portable DVD player has an inbuilt rechargeable battery pack to provide over 2.5 hours of playback when not in the car or at home, so you can watch most films without the worry of having to charge it.
