

# NESA

## PRODUCT CODE

**VB-240**

## PRODUCT DESCRIPTION

*Video Borescope with 2.4" Screen and AV output*

## NARRATIVE

The VB-240 is a video borescope allowing you to inspect hard to access places. The built-in adjustable LED lights also enable you to see in near total darkness. The detachable magnet & hook accessories makes this perfect for plumbers, workshops, aircon duct inspections, cablers or simply for reading hard to find serial numbers.

The VB-240 can save hours for any workshop or tradesman.
