PRODUCT CODE

VB-350DVR

PRODUCT DESCRIPTION

Wireless Inspection Camera with 3.5" LCD Recordable Monitor

NARRATIVE

The VB-350DVR is a video borescope with a built in DVR function allowing you to record video or still shots to microSD card for playback on the screen or on a PC. The comfortable pistol grip design and forward facing controls makes it easy to operate & the built-in adjustable LED lights also enable you to record video/take pictures even in total darkness. The detachable wireless screen & magnet, hook & mirror accessories makes this the most versatile borescope on the market. Perfect for plumbers, workshops, air-con duct inspections, cablers or simply reading hard to find serial numbers, the VB-350DVR can save hours for any workshop or tradesman.
