

ECC-10X

Other IR models

PRODUCT CODE: ECC-10X

BARCODE: 9332820007312

PRODUCT DESCRIPTION: Ultra Low Light CCD Camera with 3x Zoom

NARRATIVE

The best low light camera available. The extreme low light performance of the ECC-10X makes a pitch black room look as bright as day with up to 200m viewing distance, even in foggy conditions (with De-Fog feature activated). Expect up to 300m with a spotlight or headlight. The premium quality, high resolution CCD sensor and 3x digital zoom, the ECC-10X gives the clearest of images day or night. With a water resistant IP69 rating, vandal resistant housing and automatic heating (for ice & snow), makes this the ultimate camera for security or transport applications. And as with all NESA cameras, is covered by a 2 year warranty.
