Alert-Signaling Arrows | Wi-Fi & Bluetooth

MAX 360_c | Intelligent 360° Radar
Laser Detection

360° Directional
Alert Arrows

Connected Car's Wi-Fi
Provides Crowd Sourced
Alerts & Software Updates

GPS Intelligence
Rejects False Alerts

ESCORT Live App
Provides Crowd-
Sourced Alerts

Lightning Fast Response

The new Escort MAX 360c is the first radar and laser detector designed for the connected car. With built-in Wi-Fi, the MAX 360c updates through the on-board Wi-Fi connection, alerting the driver to the latest threats in real-time.

The new Escort MAX 360c connects directly to the car's Wi-Fi and automatically connects to Escort Live, without the need for your smartphone to connect to the detector. Escort Live keeps drivers aware of upcoming alerts received and reported by other users in the area, and gives you access to local speed limit data for over-speed alerts, right out of the box.

Features

Benefits

UNMATCHED DETECTION – 360 degrees of longest range and lightening fast response	
Protection in all directions	Front and rear antennas scan completely around your vehicle and pinpoint signal location.
Fastest Response	DSP technology finds threats faster and more accurately
UNMATCHED PRECISION - Five levels of filtering for truest alerts	
Pinpoint Accuracy - GPS-based	AutoLearn uses GPS technology to learn your route and eliminate falsing.
Standard Filtering	Highway, Auto and Auto No X modes filter out common false alerts.
Intelligent Filtering	AutoSensitivity reduces false signals by varying sensitivity with vehicle speed.
Custom Filtering	Cruise Alert Filtering minimizes alerts below user-specified speed.
IVT Filtering	Minimizes false alerts from moving In-Vehicle Technology sources such as collision avoidance systems.
App-based filtering	Filtering available when connected to Escort Live changes alert tones below user-specified speed using area speed limit data.
RICH DATA – Definitive speed trap information via the driving community and our proprietary database	
Crowd Sourced Alerts	Bluetooth-equipped to connect to Escort Live app for real-time community-based speed trap notifications.
Defender Database	Preloaded with thousands of speed camera locations that are updated in real-time via the Escort Live speed trap app.
Web Ready*	Easily update your detector with new speed trap locations via built-in Wi-Fi* or USB.
SIMPLE COMMUNICATION – Responsive alerts for effortless location and identification of threats	
Directional Arrows	Intuitively display location of threat relative to your vehicle.
Customizable High Resolution Multi-Colour Graphic Display	Clearly displays signal type, strength and quantity and even compares your speed to speed limit when connected to Escort Live.
Voice Alerts	Clear voice alerts promote focused driving.
Dual-Language	Choose English or Spanish text and voice alerts.
FULLY EQUIPPED – A complete package for the ultimate plug-and-play experience	
Premium SmartCord	Includes convenient power LED, Alert LED and Mute button.
Magnetic StickyCup mount	Our best heavy-duty windshield mount provides easy mounting and secure hold.
Premium Travel Case	Convenient case is perfect for storing and carrying Escort Max 360c.
Quick Reference Guide	Includes simple steps for use right out of the box plus instructions for custom settings and software updates.

*If you don't have a connected car or access to a Hotspot through your mobile device for Wi-Fi connectivity, users can still pair their smartphone using Bluetooth® in the MAX 360c and get all the features of ESCORT Live. When they get home or park near a Wi-Fi connection, the detector will automatically update to the latest software and firmware, without having to remove the unit from the car.

Specifications

Operating Bands	X-band 10.525 GHz ± 25 MHz K-band 23.950 GHz ± 100 MHz Ka-band 34.700 GHz ± 1300 MHz Laser 904nm, 33 MHz Bandwidth
