The MyCar Link app is available to download on the Apple Appstore and Google Play Store.

## Part 2. Setup

### 2-3. Speaker

- ◆ Radio Transmitter  
Press On/Off buttons to turn Radio Transmitter On/Off.
- ◆ Radio Frequency  
Press the button ◀ or ▶ to turn previous or next page, once the frequency has been selected tune the vehicle radio.

There are total 5 FM Channel pages containing frequency from 88.1~107.90MHz in 0.2MHz step.

**Note:** (FM tips) First, turn on the device's FM, tune to a channel without local programs, and then adjust the car's FM to the same channel.

Then the sound will be transmitted through the car stereo.

### ① INFORMATION

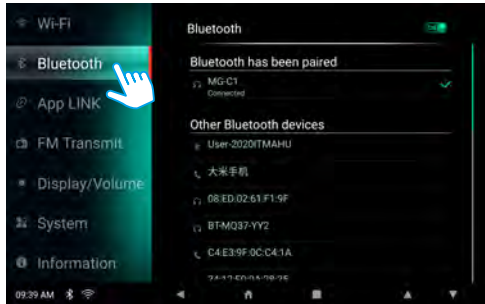

For best result, select a station with minimal background noise or existing broadcast in your area, the best method to do this is to first turn the FM transmitter feature OFF, and then check the following stations one by one to look for the one with least interference or existing broadcasts-88.1, 88.3, 88.5...107.7,107.9. Ideally you should find a station with a clean "white noise".

Set this as one of your pre-sets on the car's stereo, then turn ON the transmitter and adjust the frequency on the Rear Seat Entertainment to match this number.

## Part 2. Setup

## Precautions

- The product is subject to change without notice.  
The Screens Shown in the examples may differ from actual screens, which may be changed without notice for performance and function improvement.
- Monitor Protection  
To protect the monitor from damage, do not operate the monitor using a ball point pen or similar tool with the sharp tip.
- Cleaning  
When cleaning the touch screen, turn off the unit and use the soft cleaning cloth. Please do not use cloths such as those made with hard, chemical, or oiled materials (alcohol, benzene, etc.) This may damage or distort the surface of the unit.
- Do not disassemble or repair the system. If problem exists, please contact your local dealer for advice.
- If the vehicle was parked in a very cold or very hot place, you may see a blank screen, distorted picture.  
The system will return to normal after the unit temperature returns to a normal operating range. This may take more than an hour depending on the temperature.

## Warning

Please do not insert a separate USB device which supplies power to the multimedia USB port.
