

11" Headrest Multimedia Tablets (pair)

NHR-11TST

The stunning vivid Full HD OLED 11" touch screen brings your favourite movies and shows to life. Powered by an ARM Cortex A55 Octocore CPU, the NHR-11TST is snappy and responsive. Connect to a mobile hotspot with the dual band WiFi to stream content from the pre-installed streaming apps. Built-in multimedia player to play content up to 4K resolution from a USB stick or MicroSD card. Google Play™ pre-installed so you can download additional apps or games to the on-board 32GB storage.

Installation is simple, with adjustable headrest pole mounts and simple power wiring harness, also includes a 12v power adapter if permanent wiring is not an option. Various audio output options: RCA; Bluetooth for BT speakers or headphones; FM transmitter for radio receiver or FM headphones (3 pairs of FM headphones are included); and 3.5mm wired headphones socket. Each kit consists of 2x tablets and 3x pairs of headphones, additional headphones available.
