

10" Touchscreen Quad View Monitor with 1080p Support

The NSM-104QT supports AHD 1080p/720p camera to display rich and detailed video unmatched by standard definition cameras. The intuitive capacitive touchscreen not only controls the on-screen menu, but when you touch a camera feed, that camera switches to full screen. Touch again to go back to multi-camera mode. Many different view modes available. With a multitude of setup options and 5 triggers, the NSM-104QT can trigger and display blind spot cameras, reverse camera etc. Camera connections are a weather sealed 4 pin type which incorporate the video/audio feed as well as power for the cameras [4 pin to RCA adapter cables included x4].

Note: Video resolution is limited by the resolution of the camera.
