

**PRODUCT CODE: NSM-7300**

**BARCODE: 9332820002966**

### PRODUCT DESCRIPTION

Heavy Duty 7" Colour TFT LCD Monitor with 3 camera inputs

### NARRATIVE

When a solid robust widescreen is required, look no further. The NSM-7300 has proven itself in the harshest conditions over a prolonged period of time & is our 1<sup>st</sup> recommendation for extreme conditions such as mining. With double mount gimble nuts on each side & a rubberised finish, this screen is built to last.

The NSM-7300 will accept 12v or 24v inputs & then feeds 12v out to each camera, eliminating the need to add voltage reducers to the system.

Each input has a separate trigger wire which allows for just about any application (reverse/left/right indicator etc)

For flush mount applications a mounting kit is supplied as standard.

### SPECIFICATIONS

<b>Screen:</b> 7" LCD monitor with digital panel	<b>Video Swiching:</b> 3 x triggers
<b>Internal Speaker:</b> Yes	<b>Voltage:</b> 12/24v DC
<b>Video Inputs:</b> 3 x AV RCA + 1 front 3.5mm	<b>Power consumption:</b> Approx 6W
<b>Brightness:</b> 400cd/m2	<b>Dimension (mm):</b> 182 x 122 x 26
