

## Rear View Mirror with 7.9" Full Coverage HD Touchscreen Monitor

The NSR-74AHD is an OEM style rear view mirror with an embedded super wide 7.9" Full Coverage Full HD 1080p compatible touchscreen display. When active, the display covers the entire mirror. Designed with a slightly narrower width than a standard mirror to accommodate larger sun visors on vehicles such as the 70 Series Landcruiser. Includes a universal mounting bracket with vehicle specific mounting brackets available. Compatible with a wide range of cameras, including standard CVBS, 720p, 960p and 1080p AHD cameras. 4 camera inputs with 3 triggers [reverse gear and indicators], the 4th camera input can be used as an "always on" to use as a digital rear view display. Access the menu via the touchscreen to set each camera's own individual settings for brightness, contrast, colour and guide lines positioning.
