

3G/GPS Container and Asset Tracker - 3 Year Battery Life

The CT3G is a high performance and reliable 3G/GPS Asset Tracking device which has been designed for container, trailer or asset GPS location and theft recovery. The CT3G can be configured to report location daily while still providing battery life of up to 3 years.

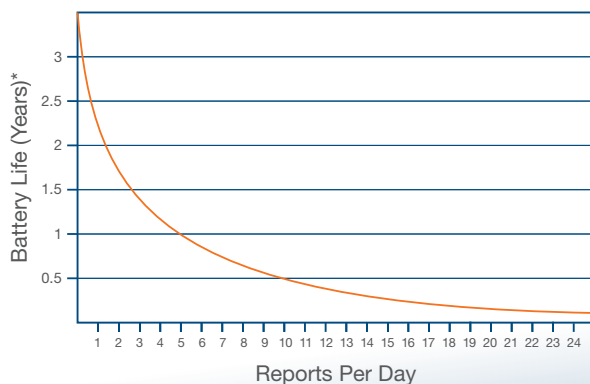

The CT3G has a built in GPS antenna and no external wires. The optimal design and IP67 rating provides protection against temperature, dust and water. The CT3G is ideal for non-powered assets or any asset requiring minimal battery usage. Its small size allows it to be used on procurement stock..

Features

- 3G data communication for live tracking
- Up to 3 year battery life (non-rechargeable, replaceable)
- Magnetic base option, or flange mount
- Utilises motion sensors and comparative GPS positioning (custom configured)
- Tracking modes:
 - Time interval mode
 - Distance interval mode
 - Idle tracking mode
 - Low battery level mode
- Reports:
 - Mileage report
 - Battery level report
- Alarms:
 - Power low/internal battery alarm
- Journey logging up to 100,000+ waypoints
- Geo-fencing control
- Customised firmware available (on application)
- Free Apple and Android fleet management app
- Can be re-configured over-the-air to change reporting intervals

Specifications

- IP67 water and dust proof rating
- Wide temperature range (-40° to +80°)
- Built in 3 axis G-sensor
- 3.6v 8800mAh replaceable battery
- Data buffer with 20000 positions
- Internal cellular antenna allowing multiple mounting positions
- Internal GPS antenna (external antenna version available)
- Size: 120mm x 80mm x 32mm
- Weight: 240g

*Battery life is an estimation only and depends on operating environment such as GPS signal, 3G coverage or temperature.
