

10" Touch Screen Monitor for MDVR8AHD

This 10" touch screen monitor is specifically designed for use with the Fleetminder MDVR8AHD Multi-Channel Driver Recorder System. No need to use the MDVR8AHD's remote, as this monitor is seamlessly integrated with full touch screen control of the menu to change settings or access recordings, as well as manual switching between camera views on the fly. Multiple view modes depending on how many cameras you have setup. This makes setup and operation of the MDVR8AHD much simpler and user friendly.

The screen itself is AHD 1080p compatible with a crystal clear IPS LED capacitive touch screen. Vivid and bright with 500cd/m² brightness and ultra wide 180° view angle. Runs on 12~36v DC so with operate on any ute, van or truck. All mounted on a solid dashboard mount with a fully adjustable ball & socket swivel to position the monitor angle.
